

**STEP
TOGETHER**

For My Future

For people with experience
of the criminal justice system

Opening doors to volunteering

Step Together Volunteering supports participants to build and develop the personal and practical skills needed to move forward. As well as offering progression routes into volunteering, training, and employment.

We aim to help overcome the barriers people with criminal convictions face in finding work and our tailored course comprises 20 hours of guided learning, 1:1 mentoring and home learning, CV and interview techniques and a plan to get you into volunteering within your community.
