### Early Help Champions meetings

Our 3 district Early Help Hub Managers, Jayne Kyem, Angela Platt and Halina Zaslowsky, would like to invite you to attend one of our Early Help Champion meetings being held this year. As well as an opportunity to share issues and solutions to Early Help challenges, these forums are a great opportunity to network with staff from a wide range of sectors. The meetings host regular guest speakers and are an invaluable source of information on other agencies who may be able to support families. To gain further information on venue and times and to book a place please email the managers detailed below. The dates for the meetings are as follows;

Time, from a selection of our champion meetings, is used to help support improving the quality of registered Early Help Assessments.

Those professionals who attend the champions meetings look at a number of E.H.A's registered by a range of agencies.

We will look to send invitations to those agencies whose E.H.A's are to be explored, as the exercise is a learning and developmental process for both those exploring quality and those who's E.H.A's are being explored.

The sessions are open to all professionals engaged with or wishing to undertake E.H.A's

To take part in one of the sessions highlighted to the left, once again please make use of the contact details on this flyer.

In addition to the above we will look to continually update you on all upcoming training and resources being made available throughout the year.

Above all please remember that a wealth of information and guidance on all things Early Help can be accessed by visiting our Early Help Practitioner Zone:
