Height: 1m 54cm

Width 3m 66cm

Set of 2: One locker top, one locker bottom: 52cm wide

We may also have the below. They would need to be disconnected removed by collector. Please contact me if you are interested.

Zip water tap hot & chilled water

This is the newest tap. It dispenses hot and chilled water. The heating and cooling unit goes under the worksurface and requires wiring and plumbing in.

The cupboard the under-counter heating/chilling unit is currently in is: width: 56cm / height: 56cm / deep: 50cm. The unit itself is width: 28cm / height 33cm / depth 46cm.

Zip water tap hot water only

This tap is older but I think a better design and more robust.

The heating unit for this tap is width: 28cm / depth 31.5cm / height 33cm.

We used to get an all-inclusive maintenance contract with Zip Hydrocare, this included a 6 monthly service, change of filters when needed and new parts. To give you an idea of cost this plan cost around £2,000 per year for 4 taps.
