Safeguarding in a youthwork setting

Action learning sets

Learning workshops to disseminate best practice in safeguarding;
Capturing the skills and experience of the Manchester youth sector.

Young Manchester and GMYN are inviting ten organisations to come together in a set of facilitated workshops to share learning on safeguarding practice in youthwork.

This programme will capture stories and experience and use this learning to develop training and resources for the wider youth sector.

*Session 1: GMYN office
Wednesday 12th June
(9.30am – 12.00pm)*

*Session 2: GMYN office
Wednesday 19th June
(9.30am – 12.00pm)*

How does it work?

GMYN will be delivering two facilitated sessions in June. Organisations will be supported to discuss and present their practice/service models from their own experiences from delivering youth work.

We will be looking for clear examples of learning from dealing with incidents, reporting and managing any challenges.

This learning will create new resources for GMYN and Young Manchester to help direct and inform future strategy on safeguarding training and support for the youth sector.

Remuneration for your involvement

Organisations are invited to apply to attend and contribute to the sessions. The attendees will need to be experienced workers who have already attended safeguarding training so that they are fully prepared to be able to input into discussions.

Workers need to attend both workshops, and their contribution to the sessions will be recognised by a payment of **£100** to their organisation.

To register your interest to be one of these ten organisations and contribute to these workshops, please contact info@gmyn.co.uk
