GENERAL

Garfield Western

Garfield Western support a wide range of charitable activity in the UK in areas such the arts, community, education, environment, youth, faith, health, welfare, museums and heritage.

Projects should fall within at least one of the following categories:

- Arts – Both revenue and capital grants for a wide range of organisations (from small community theatre groups to national arts galleries) that engage with a variety of audiences and that can demonstrate their impact and quality.
- Community – A large volume of grants are made every year to community projects, many of which rely on the time and goodwill of volunteers. The majority of projects tend to be relatively small compared to other categories due to their local grass-roots nature, and correspondingly the grants made tend to be smaller in comparison. Typical projects supported include revenue grants for volunteering schemes and capital grants for the restoration of village halls and community centres and for facilities to support community life.
- Education – Grants to support education, from small local projects such as reading schemes and after school clubs, to major institutions such as universities.
- Environment – Grants to support a range of environment projects ranging from organisations that raise public awareness of, and find solutions to, specific issues such as sustainable fishing, in addition to charities that undertake active conservation work.
- Faith – Grants to support simple but practical projects that enable religious buildings to be used for an inclusive range of charitable purposes by their local communities. Capital grants include funds towards the instillation of basic amenities such as lavatories and kitchen facilities and for restoration works to historic church buildings.
- Health – Grants range from specialist care homes and hospices, charities specialising in the treatment and support for specific illnesses, to translational research focusing on medical breakthroughs that will benefit generations now and in the future.

- Museums and Heritage – Grants to support organisations that conserve and interpret the nation’s heritage for future generations, ensuring it is accessible and available to all.
- Welfare – Grants for charities that work with a variety of causes and groups including the elderly, homeless, disability and special needs and those in the criminal justice system. Grants made reflect a charity’s size and the nature of the work or project being undertaken.
- Youth – Grants for charities that consistently demonstrate the commitment of volunteers and professionals across the country to support and inspire young people to achieve their potential. This includes small local groups, such as girl guides and youth clubs to larger national youth development charities.

Grant amount: Regular Grants of up to £100,000. Major Grants of £100,000 and above. (When awarding major grants, the Foundation would typically expect that the project and organisation's overall annual income is in excess of £1million.) Typically grants are made for a single year; however, the Trustees may consider making a grant spread over a number of years at their discretion if they feel this would be appropriate. Match funding is required and should be secured before applying.

Sporting Capital Loan Fund

Aims/priorities: The Sporting Capital loan fund is England's first social investment fund focused on the sports sector to support the development of community sports organisations and organisations that deliver impact through sport. The goal is to help these organisations to become sustainable, using the investment to support the development of new, or retain and expand existing, revenue streams. The loan funding will be used to help organisations develop new projects, operations and revenue streams. Whilst every organisation's needs will differ, the funding is expected to be used for projects and activities such as:

- Equipment to support revenue streams
- Recruitment, training and deployment of staff and volunteers
- Equipment to support business functions, including finance, project management and governance
- Other operating costs

So, for example, the 'bricks and mortar' of a capital redevelopment such as a new roof wouldn't be funded, but investment to support a community café (new revenue stream) would be considered. This could include café kit and equipment, training deployment of new staff and volunteers, management support to get the café operating and funding towards marketing the new venture.

Who can apply? Organisations that make a difference, or plan to make a difference, to individuals or local communities through sport. Also these organisations are looking to do this sustainably by developing existing revenues, or creating new ones, to support their ambitions.

Grant amount: The £3m Sporting Capital Fund provides loan funding of between £50,000 and £150,000 to eligible projects. The simple, repayable, unsecured loans will be tailored to meet the needs of each organisation and will be repayable over three to five years.

Application process: Complete the online form to determine how 'investment ready' you are

Deadline: Applications can be submitted at any time
