University**

Manchester Met Community Research Awards

Manchester Met University are launching the Community Research Awards. We have funding for up to four research projects to work in partnership with local community groups in the Manchester Local Authority area. Through the scheme, we can provide you with an experienced researcher who can help develop the scope for research in your organisation and then carry out that research for you. This will greatly increase your chances when you are bidding for grants and funding or confirm that what you are doing meets the needs of your community group. Types of projects could be an evaluation of your food bank services to understanding people's barriers to exercise or undertaking some research to support evidence for a bid for another funding stream.

If you are interested, please send us an email and we will send you an application form.
