## **Exciting Opportunity May 2017**

### **New Youth Provider needed to take over the running of Cedar Mount Youth Club**

Cedar Mount youth club has been run by Mancunian Way for 3 years on a Friday evening. Mancunian Way is looking for a new youth provider to take over this provision so they can concentrate on their new Salford centre.

Presently it runs 4-6pm, but has previously run 4-7pm and 4-8pm. It is housed at the school in an annex building called The Bridge and has some access to the sports hall, astro pitch and grassed areas. The school does not charge any rental to the youth club.

Manchester City Council currently contribute £5500 pa towards running costs. This funding is still on offer until the Young Manchester Trust is up and running and takes over all council youth funding contracts. It is expected that funding of this youth club will continue as Gorton South is a priority ward and has a lack of youth provision.

Mancunian Way will support any new provider to settle in, get to know the young people, and will be available for help and support as any new provider finds their feet.

Local Councillors are aware of this change and are supportive. Local Councillor NIF grants can be potentially accessed to acquire additional funding.

Our current sports coach is happy to work with any new provider and secures some of his own funding.
