

IT'S TIME FOR A SOCIAL RENT REVOLUTION!

Launch of the final report and
recommendations of the Manchester
Social Housing Commission

FRIDAY 15th MAY, 2.00–3.30PM
Council Chamber, Manchester
Town Hall Extension (M2 5DB)

The Manchester Social Housing Commission, chaired by Right Rev. Dr David Walker, Bishop of Manchester, brings together tenants, faith and community organisations, tenants associations, charities, political leaders and officers, and senior housing and planning sector professionals and academics into a shared purpose:

To develop a series of pragmatic and financially robust recommendations on how to accelerate delivery of sustainable social rent homes, and promote more equitable forms of urban development.

Our four themes have been:

- Evidencing the importance of increased delivery of sustainable social rent homes.
- New ideas for how to finance and fund increased delivery and renovation.
- Empowering tenants to achieve decent homes and landlord accountability.
- Alternative models for achieving these outcomes that also build community power, cohesion and wellbeing.

The event will include presentation, testimony, panel discussion, and Q&A and will conclude with afternoon tea.

Please join us to learn from this exciting approach to knowledge generation, innovation and reform.
