# Ensuring Safety & Legal Compliance in Minibus Operations

Are you a not for profit organisation?

A school / college / FE Establishment?

Do you operate a minibus for your community / students / clients or want to know what this involves?

**If you answered yes to any of these, then minibus operation training can help you to start building an understanding of your responsibilities.**

LOTTERY FUNDED

**Manchester Community Transport (MCT) is the largest Community Transport operator based in the Northwest. Having been in operation since 1982, we have significant experience of successfully operating minibuses in a highly regulated market. MCT is therefore offering non-accredited training. Our training sessions are designed to raise understanding of legal compliance and successful operation:**

- Daily “Driver Walk Round” checks – procedures & legal requirements;
- Vehicle inspections, maintenance checks & record keeping requirements;
- Safe operation and driving standards; and
- Correct licence and legal compliance.

Jointly funded by The Big Lottery Fund and MCT, the training session will not only help you to make your minibus and operation safe & legal, it could help save you money on maintenance too.

The morning / afternoon session costs just £15.00 per person and includes an information pack to take away with you.

To book a place or for more information please contact MCT.
