To meet the sea: <https://vimeo.com/315917077>

HD video 9' 44" Voices of 13 women over 60 speaking about becoming older as a non-linear process, with a journey down the tidal Thames as metaphor.

Time as mutable and expansive

Change, but stay the same

Becoming, evolution

Different selves fused

Part of the whole

Context

Reversion

Constant discovery

Being everyone you've been

Growing up post-war – an enduring idealism

Cyclical, new and similar

Limited time

Beginning to understand

Time as layered, sedimented experience
