

# Spirit of Manchester 2017 Mini-grants Programme

## End of Project Report

### Whitemoss Club for Young People (working with volunteers from The Body Shop Enriching Communities initiative)

This £500 mini-grant was used to help conclude the development of a community memorial garden adjacent to Whitemoss Club for Young People in the Charlestown ward of north Manchester.

The mini-grant enabled the club to acquire a large umbrella and wooden table suitable for outdoor use and able to seat eight people. Club volunteers worked together with Body Shop volunteers to refresh flower planters and assemble and site the table and umbrella.

The mini-project went well enabling the memorial garden to be completed ready for local people to use during the summer months.
