

Socio Economic Regeneration CIC With the Congolese Association of Greater Manchester

Socio-Economic Regeneration CIC used its mini-grant to hold a social event that involving BME communities in Moss Side, including African Caribbean communities and the Congolese Association of Greater Manchester. The purpose of the event was to create some dialogue about stigma past and presently affecting neighbourhoods of Moss Side. Discussions highlighted how residents continue to experience issues associated with the Windrush generation, migration, integration and their effects on diversity in the area.
