

access to opportunities

Access to opportunities (a2o) is launching a new course in March 2015. The course is aimed at helping young people recognise their talents and capabilities, and overcome any barriers that could be preventing them from accessing the job market. Although A2O aims to improve the prospects for young people finding sustained employment in a career of their choice, we also recognise suitability to alternative career paths, and self employment

The course is open to all 19-25 year olds, who are currently not in education, employment or training. All applicants must be eligible to work in the UK.

The course will run for 10 weeks so if you are receipt of job seeker's allowance you will need to speak with your advisor first before applying.

This course is aimed especially at those:
