

CaSPER

Culturally-appropriate Schizophrenia Psychological Education Resources

Would you like to help develop a learning resource to improve **African Caribbean** families' knowledge and understanding of schizophrenia?

We are inviting you to take part in the second phase of our research if you are **18 -29 years old** and a **family member, relative or carer** to someone with **African Caribbean heritage** diagnosed with **schizophrenia**. We would like to hear your views about what should go in the resource.

Focus group will be held on Wednesday 5th October
at 6-8:30pm

Venue: Coupland 1 Building, The University of Manchester

If you would like to find out more, please contact:
