ABOUT US

Driven by our belief that **everyone** has a right to good food, our mission is simple: to work collaboratively with others to alleviate hunger and increase food security - especially amongst communities sidelined by poverty and other complex disadvantages. We provide food and cooking education and support for people experiencing homelessness, mental health challenges, social isolation, people fleeing violence, prison leavers and hospital discharge patients. We enthuse, encourage, and teach individuals and groups how to source and cook affordable, healthy, and tasty food from scratch whilst minimising both food waste and our environmental impact.

We also offer Cookery School Classes, Foraging Expeditions, Pop-Ups, Restaurant Take Over Events, a Catering Service and Team Building Activities, the fees from which help to cover our core running costs - but more than 75% of our work is in areas in the 20% most deprived in the country.

We are passionate about supporting ALL communities to access and cook good food as part of a wider campaign for a fairer, greener and more sustainable food system.

Jane, Population Health Team, December 22

Each department was keen to be involved with this project and contribute in some way. It was great for us all to come together for such a worthy cause, and to see the impact that we can have when local businesses come together to better their community.”
