

giving back

to our communities

**Working with partners and communities
to tackle the issues that matter most to you**

We have an opportunity to put funds back in to certain areas of Greater Manchester using money seized from criminals.

It's all part of our commitment to working together, listening to our communities and sharing information to tackle the issues that matter most to you.

“Giving Back” is an opportunity for people like you to help us give the money to the individuals, organisations and groups that can help tackle **antisocial behaviour** in your community.

ON HOW TO APPLY FOR FUNDING

giving back

to our communities

We need to hear your ideas for innovative projects that could help tackle antisocial behaviour and make the area you live in the best place it can be.

These projects will aim to tackle the issue in your community in order to make it a happier, healthier and safer place to live, work and enjoy.

Think you have an idea or a project you're involved in/are currently organising that could fit the bill?

View a list of areas that are going to benefit and have a read of the criteria and details on how to apply at
